DESCRIPTION & APPLICATIONS

FLUID SVO is a fully synthetic oil especially developed for UTTO transmissions, hydraulic clutches and wet brakes. The product meets the Volvo WB 102 requirements for wet brakes.

FLUID SVO has a low pour point, excellent anti-friction properties (anti-stick slip) and the anti-wear and extreme-pressure capacity will ensure perfect lubrication of gears, pumps, bearings of hydraulic systems.

ADVANTAGES

- Antifriction power : prevents rattling and grinding wet brakes.
- Extreme pressure and antiwear power ensures the lubrication for gears, pumps, bearings and hydraulic circuits.
- Compatibility with joints: no distortion or corrosion of joints, ensuring thus an absolute seal of parts.
