

# MULTIFUNCTIONS

LUBRICANT AND HYDROFUGE SPRAY PRODUCT

500003/05.17

Rev. 3

## **DESCRIPTION & APPLICATIONS**

As its name suggests, MULTIFUNCTIONS is a product with multifunctional properties: Water repellent, anti-corrosion, lubricant, insulation, cleaner.

On the treated surfaces, it leaves a very thin film with multiple properties. It has a strong water-repellent effect, avoids leakage currents and short circuits in lighting and lighting installations. A battery briefly processed with MULTIFUNCTIONS is well protected against self-unloading and corrosion by acid.

The rubber seals treated with the product remain flexible and do not stick.

Thanks to MULTIFUNCTIONS, a whistling belt regains adhesiveness and its longevity is increased.

## **ADVANTAGES**

- The straw accompanying the aerosol allows locks and fine mechanisms to be treated efficiently and protecting them, among others, against frost.
- Wide operating temperature range.
- Multifunctional.

## **PACKAGING**

- Available in white metal sprays of 500 ML.
- Double ball valve for multi-position use.
- Delivered with 2 spray nozzles : 1 short and 1 long (100mm)

## **ENVIRONMENT, HEALTH & SAFETY**

Inflammable ! Do not expose at temperatures above 50°C.

Please consult also the Safety Data Sheet about how to manipulate and to stock the product as well as to learn about the first aid measurements in case of accident.

Elimination after use has to be made in conformity with the local rules in force about used sprays disposal.

Throw away only if completely empty.

Keep out reach of children.

Propulsion gas (propane-butane) with no ozone depletion potential.

Shelf date: 3 years.
