

# CHAIN BIO

## BIODEGRADABLE LUBRICANT FOR CHAINSAWS

230066/08.10

Rev. 0

### DESCRIPTION & APPLICATIONS

CHAIN BIO is an adhesive biodegradable oil for lubrication of chains of chain saws.

BIO CHAIN is essential for forestry companies to protect the environment.

### ADVANTAGES

- Great adhesion to metal.
- Excellent lubricity.
- Anti-wear and anti-corrosion properties.
- Very good viscosity-temperature behavior.
- Does not attack iron alloys and magnesium-aluminum, or joints and pipes.
- Biodegradable: not harmful to the environment.

### PERFORMANCES

Satisfies to the following specifications:

CEC-L-33 A-93 (biologische afbreekbaar >90%)

### ENVIRONMENT, HEALTH & SAFETY

Please consult also the Safety Data Sheet about how to manipulate and to stock the product as well as to learn about the first aid measurements in case of accident.

Elimination after use must be made in conformity with the local rules in force about used oils disposal.

When needed, Safety Data Sheet can be obtained upon request.

Conservation of the product: 3 year(s) in closed container and sheltered.

### PROPERTIES

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Kinematic viscosity at 40°C	mm <sup>2</sup> /s (cSt)	NFT 60100	100
Pour point	°C	NFT 60105	-21
Biodegradable	%	CEC-L-33-A-93 > 95	93,2
Product number	-	-	230066
