

# PARADIAN 50

BLUE COLORED READY-TO-USE COOLANT FOR  
ALL AUTOMOBILE COOLING SYSTEMS

700003/12.19  
Rev.1

## DESCRIPTION

PARADIAN 50 is a ready-to-use coolant of the G11 type based on monoethylene glycol (MEG). The liquid can be used in sealed or unsealed cooling circuits of cars, trucks, tractors and earth-moving machines. This coolant offers protection against frost up to -40 ° C. It is recommended to change the coolant every 5 years.

## ADVANTAGES

PARADIAN 50 is a permanent coolant which does not require annual draining of the cooling system, thanks to its excellent quality level.

- High alkalinity reserve, providing efficient and durable rust protection.
- No effect on hoses or seals.
- No corrosive action on non-ferrous metals (copper and aluminum alloys).

Does not attack welds.

Paradian 50 is free of ethanol and glycerin.

## PERFORMANCES

PARADIAN 50 meets the requirements of French Standard R 15-601 Type 3, used by many automobile and industrial vehicles manufacturers.

## PROPERTIES

CHARACTERISTICS	UNITS	METHODS	TYPICAL DATA
Colour	-	-	Blue-green
Density at 20°C	kg/m <sup>3</sup>	NFR 15.602.1	1068
pH	-	NF T 78103	7 to 8.5
Alkalinity reserve	ml HCL (0.1 N) / 10 ml	NF T 78101	> 10
Refractive index	-	NFR 15.602.2	1.39
Boiling point	°C	NFR 15.602.4	> 105
Freezing point	°C	NF T 78102	- 36

*Typical data are given for information only.*

## ENVIRONMENT, HEALTH & SAFETY

Elimination after use must be made in conformity with the local rules in force about disposal.

When needed, Safety Data Sheet can be obtained upon request.

PARADIAN 50 does not contain nitrites or amines but is based on monoethylene glycol (MEG); therefore it is subject to statutory labelling for dangerous substances (poisonous if ingested).

**Keep out of reach of children, do not swallow, do not put into sewers or surface waters, keep it stored in original package.**
