

# GLASS CLEANER

READY TO USE WINDOW WASHER ANTIFREEZE

700009/02.00

Rev. 3

## DESCRIPTION

GLASS CLEANER is a **ready to use windshield washer anti-freeze**, based on methanol, which should not be diluted with more water and is used in the windscreen washer systems of vehicles. GLASS CLEANER defrosts and cleans the windows.

## ADVANTAGES

- **Frost protection up to -20 °C**
- **Immediate action** thanks to excellent wetting ability
- **Great cleanliness of the windshield** thanks to its detergency
- Protection of windshield washer systems (particularly at the nozzles) against scale
- **Good compatibility with plastics**

## APPLICATION

GLASS CLEANER is applied in pure form at temperatures as low as -20 °C.

## SAFETY, HYGIENE AND ENVIRONMENT

For guidance on handling, storage, first aid and the like refer to the safety data sheet which can be obtained on request.

## PROPERTIES

PROPERTY	UNIT	METHOD	AVERAGE VALUE
Density 15 °C	kg/m <sup>3</sup>	NFT 60101	956
Flashpoint (PMCC)	°C	ASTM D 93	47
Boiling point	°C	ASTM D 1120	> 75
Kristalisation temperature	°C	ASTM D 1177	-20
Surface tension at 20 °C	mN/m	-	< 35
Colour	-	-	Blue

The mean values are provided for information only.
